

Stephanie Alexander Kitchen/Garden Program – Years 3 to 6
Environmental Science – Years Prep to 6
Allergy Information

Dear Parents/Carers

The Stephanie Alexander Kitchen/Garden operates for students in Years 3 to 6. Aspects of the program include planting, harvesting, cooking and eating

Students in Years Prep to 6 are involved in the Environmental Science program. During the sessions students investigate plants and other materials, within the garden and school grounds. These activities may involve touch, taste and smell.

It is imperative that we have information of any allergy relating to eating or preparation of food or garden/outside activities, for example grass allergy.

Please note your child will be unable to participate in the Kitchen/Garden program until this form is completed and returned to school. A completed form is required for every student even if there are no known allergies.

This form will be kept on file for the duration of your child's enrolment at Rowville Primary School. If you become aware of any allergies or if your child is diagnosed with any allergies throughout the year, please notify your child's teacher and the office and a new form will be issued for completion.

Child's Name: _____ 2013 Grade _____

Please tick if your child has no known allergies.

Please tick and complete details below if your child is allergic to any of the following:

Foods: Please List

Other : Please List

What special care is recommended for these allergies?

As your child will be learning both in the garden and the kitchen, it is important we have as much information as possible. If there is anything else we need to know please list below.

Parent/Carer's Name: _____ (please print)

Signed: _____ Date: _____
